

The Hong Kong Orthopaedic Association e-Newsletter (November 2025)

Dear Fellows and Members,

It is with great honour to write this HKOA newsletter and I am delighted to share recent activities of the association.

Celebrating the HKOA's 60th Anniversary and HKOA 45th Annual Congress

In celebration of the HKOA's 60th Anniversary, this year's theme, **"From Roots to Innovative Technologies, Artificial Intelligence & Beyond"**, highlighted the evolution of orthopaedics and the exciting future ahead. The Organising Committee had curated a dynamic scientific program and invited many esteemed speakers to share their experiences. The 45th Annual Congress took place from **November 1 to November 2, 2025** at the Hong Kong Exhibition and Convention Centre. This year the academic congress provided an energetic platform to explore cutting-edge research and innovations, as well as new technologies in orthopaedics.

Attending the 17th Annual Congress of COA

Numerous HKOA members attended the 17th Annual Congress of the COA this year. The congress was genuinely inspiring, offering an outstanding academic platform for the discussion of latest research and technologies. There were also insightful dialogues and exchange of innovative ideas, along with valuable networking opportunities. The congress was very well-organized and engaging, providing important insights into orthopaedic care.

Finally, thank you to all HKOA members for the continued support to HKOA!

Best regards,

Dr. Ronald Man Yeung WONG

Council Member, HKOA
